

# AUTUMN 2 2024

In maths, we have been adding, subtracting, multiplying and dividing fractions.

In English, we have used portals to inspire our writing. We have enjoyed creating different settings for our stories.

This half-term we have continued to read The London Eye Mystery to develop our reading and comprehension skills.

In computing, we have been coding using Micro:Bits. We have ending being hands on with coding.

We received our leavers hoodies this half term.

Don't we all look very smart!
